

Open Position Available

STRUCTURAL DESIGN ENGINEER WINTER PARK, CO

The Design Engineer assists experienced engineering staff by performing the routine aspects of engineering assignments, subsequently providing familiarity with the programs, staff, and operating procedures of the company. Limited exercise of judgment is required on details and in making preliminary selections of engineering alternatives. Applies standard practices and techniques in specific situations, adjusts and correlates data, and recognizes discrepancies in results.

We are seeking a like-minded professional to join our team. Flexibility and desire to work on multiple projects is essential.

Education

- Bachelors or Master's Degree in Civil Engineering with an emphasis in Structural Engineering
- Possess EIT certification, or has the ability to take the Fundamentals exam within six months of hire

Minimum Qualifications

- 0-3 years minimum experience
- E.I.T. preferred
- REVIT experience preferred
- Strong communication skills
